

Deloitte Corporate Finance Advisory is hiring Analysts and Associates in Aarhus and Copenhagen

We offer a unique career opportunity

If you ever dreamt of stepping up into the limelight of corporate finance, this might be the best step you can take.

As a new hire in Deloitte Corporate Finance, you will get to experience all our offerings. We solve a wide variety of complex tasks in a high-paced environment with significant exposure to top management teams and other key stakeholders.

You will embark on a steep learning curve with a high degree of flexibility – working with subjects taught in corporate finance and strategy courses. And you will get to shape your career by identifying and specializing in the offering or industry – or both – that suits your interests and strengths best.

The leading Corporate Finance adviser in Denmark

We are the #1 M&A adviser in Denmark with more than 85 completed deals since 2015.

On top of that, we're also preferred partner for other financial challenges and opportunities; advising on debt-related transactions and analytical matters such as valuation, financial modelling, capital structure considerations and economic analysis. The clients we serve are private equity funds, business-owners, and corporates across a broad range of industries.

We are ~70 talented professionals located in Copenhagen and Aarhus. We work in teams and cherish dedication and highly competent colleagues. You can expect leadership across all levels of seniority, while informality, inclusion, and sharing laughs at the office come naturally to us.

Who are you?

First and foremost, you're pleasant to be around and good with clients. Naturally, we expect you to be ambitious and passionate about what you do and possess the drive to make things happen.

Given the environment we operate in, that translates into a result-oriented top-performer with the social intelligence to match it – by which we mean you're a team player and possess the ability to make an impact that matters. We've narrowed it down to the following characteristics:

Mindset

- ✓ High level of agility
- ✓ Strong logical reasoning
- ✓ Outgoing personality

Abilities

- ✓ Outstanding communication skills
- ✓ Excellent strategic & financial insight

Education

- ✓ Ongoing BSc
- ✓ Ongoing MSc
- ✓ Finalised Msc

The more you can tick off, the better. And don't shy away from applying just because you can't tick them all off. We're interested in you as a person in combination with the right skillset.

Interested?

Please submit your application, CV, and grade transcript(s) from your bachelor's and if applicable master's degree no later than the 1 December 2020.
